- Objective: ..... 3
- Embedding BBIH widget in a web page..... 3
- Functionality..... 3
- Adjusting Size ..... 4

## Objective

BBIH Widget is a small search box that can be easily incorporated into any website (partner website, subscribing library, etc.). Via the search box users can search the database without having to log in to the system. It will bring the bibliography closer to the end-user. The widget aims to attract new users and increase usage.

## Embedding BBIH widget in a web page

The following code snippet must be added in the web page for the BBIH Widget to be embedded:

```
<script type="text/javascript" src="http://apps.brepolis.net/BrepolsWidgets/BrepolsWidget.ashx?wi=BBIH&width=180&height=89"></script>
```

## Functionality

This Widget serves as a link to the BBIH search engine.

Upon entering a keyword or keywords and clicking the search button, the user is redirected to a new window where the results of the query appear in the BBIH web page. Only users with an active subscription will be able to view the results.

#	Author	Title	Year
1	AHIAKPOR, James C. W.	The modern Ricardian equivalence theorem : drawing the wrong conclusions from David Ricardo's analysis	2013
2	CARLEY, James Patrick	Harrison and Leland	2013
3	COOPER, James	'Superior to anything I had seen in the States': the 'Thatcherisation' of Republican strategy in 1980 and 1984	2013
4	DALES, Douglas	Alcuin II : a study of his theology	2013
5	FAITH, Rosamond DAVIS, James PAUL, Helen J., 1975- MURPHY, Anne L. CROOK, Tom, 1977- VELKAR, Aashish GODDEN, Chris	Review of periodical literature published in 2011	2013
6	FENSKE, James	"Rubber will not keep in this country": Failed development in Benin, 1897-1921	2013
7	GALLOWAY, James A.	Coastal Flooding and Socioeconomic Change in Eastern England in the Later Middle Ages	2013
8	GONZÁLEZ-TREVIÑO, Ana Elena	"Kings and their crowns": Signs of Monarchy and the Spectacle of New World Otherness in <i>Spanish Drama and Public Ceremony</i>	2013

## Adjusting Size

The code snippet above contains in its query string value 180 pixels for width and 89 pixels for height. This is the minimum size for the widget.

If desired width can be increased to a maximum of 570 pixels.

```
<script type="text/javascript" src="
http://apps.brepolis.net/BrepolsWidgets/BrepolsWidget.ashx?wi=BBIH&width=570&height=89">
</script>
```

Adjusting widget's height has no effect on the actual size of the widget, but it increases the top and bottom margins. It is not recommended to do so unless strictly necessary. 89 pixels is the optimal value for height.
